ABOUT US

Majestic Percussion traces its beginning to the family firm of Van der Glas B.V. founded in 1921. In 1960, the “Majestic” brand name was born. With the growing popularity of drum sets at that time, the Majestic brand name was introduced on professional kits which were used by rock bands throughout Europe. By the late 60’s, Majestic marching and concert percussion were being produced and quickly became the central focus of the company’s activities. The growth and expansion of the Majestic product line continued, including a complete line of timpani which were quickly recognized for their tremendous quality of sound and craftsmanship.

Today, Majestic percussion instruments can be seen and heard in musical performances all over the globe. Majestic timpani are the choice of many of the finest ensembles around the world. In recent decades, Majestic mallet instruments have quickly become the preferred brand for the most demanding percussion performers, educators and notable artists.

MARIMBAS

Reflection

To imagine the future, one must contemplate the past.....

Years of thoughtful research and input from top artists have led to this moment: the beginning of a new era in mallet percussion innovation. The evolution of performance and repertoire demands instruments that mirror the times and allow the personality of the musician to shine through. It begins here, with the Majestic Reflection Series Marimba.

M850HB

M843HW

M843HB

FEATURES

Integrated Bar Geometry with Free-Floating Bar Post

- Moderate bar widths provide comfortable interval spacing that results in tonal balance and sensitivity.
- Free-floating bar posts with resonance isolation enhance sustain, eliminate frame noise and provide tonal clarity.
- With a more flexible core, the bar posts absorb shock to improve feel and enhance rebound.

Central Truss System with Modular Frame Design

- Central truss supports individual resonator sections and bar racks, revolutionizing instrument set-up.
- Facilitates easy passage through 30" doorways.
- Lightweight aluminum design reduces instrument weight for ease of transport.

Innovative Resonator Design

*US.PAT.NO.D822,097 *EU.PAT.NO.004111474-0001

- Syringe-inspired tuning system ensures an air-tight seal and allows for quick, easy adjustment to environment.
- Three octave tunability (C2-C5) provides tonal optimization over a wide range.
- Modern aesthetic reflects the dynamics of contemporary repertoire.

"Uni-Lift" Single Side Height Adjustment

- Optimized gear ratio enables smooth adjustment to conserve player energy.
- Transmission shaft enables full instrument height to be adjusted by one person with a single lever.
- Automatic folding function protects the handle.

SPECIFICATIONS

Model	M850HB	M850HW	M843HB	M843HW
Octave	5		4.3	
Range	C2 - C7		A2 - C7	
Notes	61		52	
Bars Widths	76-41 mm (9 graduations)		72 - 41 mm (8 graduations)	
Pitch	A=442			
Resonator	Black	White	Black	White
Bar	Rosewood			
Frame	Modular Frame			
Tuning Range	C2 - C5		None	
Tuning Cap	37 (3 Octaves)		Fixed Caps	
Leg Assembly	"Uni-Lift" Single Side Height Adjustment

Height Range	84 - 105.5 cm			

SHE-E WU

International Soloist and Educator

"This is the perfect partner for making music: it listens, it responds, and it collaborates. It is the most versatile and flexible instrument that I have ever played."

CASEY CANGELOSI

*James Madison University International Soloist
Acclaimed Composer*

"Never have I been so excited for a new instrument as this. Friends, you need to check this out. You will be amazed!"

THOMAS BURRITT

University of Texas International Soloist

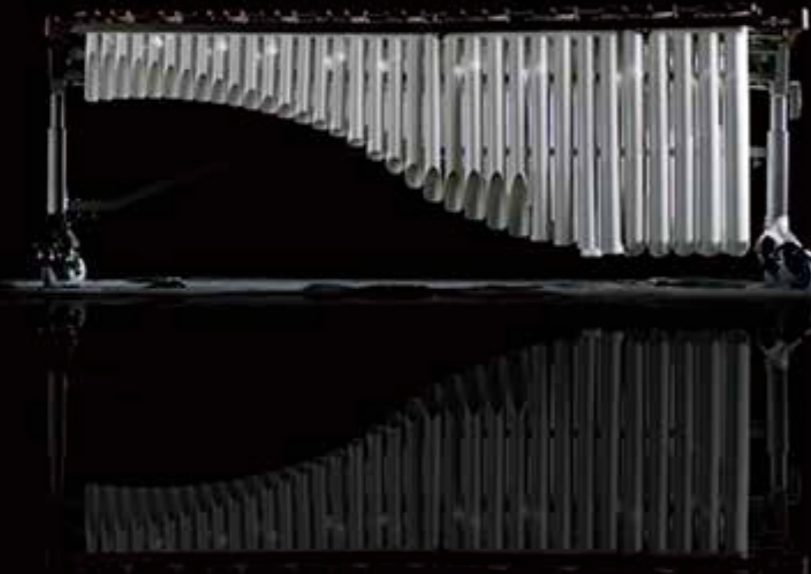

"The Reflection Series Marimba embodies Majestic's obsession with inspiring today's percussionists. It demystifies the tunable resonator and facilitates easy navigation through doorways while setting new standards for tonal clarity and balance. Today's marimba has arrived."

TO IMAGINE THE FUTURE
ONE MUST CONTEMPLATE THE PAST

MARIMBAS

CONCERT BLACK SERIES

The Majestic Concert Black Series 5.0 octave marimbas bring modern features that Majestic is known for into an instrument perfect for schools, universities and ensembles. Select rosewood or padauk bars are manufactured with the highest degree of technology and craftsmanship. The height adjustable function and tunable low-range resonators adapt to all playing conditions ensuring tonal quality, resonance and comfort.

Features:

- Solid wood end pieces and rails with heavy duty legs and cross bar provide maximum stability and reliability.
- Fine-tunable resonators below A2 can be adjusted to temperature and humidity in order to achieve maximum projection and sustain.
- Integrated bar geometry with 9 graduations.

ROSEWOOD BARS

DR. BRIAN MASON

Professor of Percussion Morehead State

“The rich sound of Majestic timpani adds dimension and depth to orchestral, band, and percussion ensemble performance.”

THE Majestic *Opus One* series of orchestral snare drums seamlessly combines classically inspired design elements with a carefully curated assortment of shell sizes, bearing edge refinements and select shell materials to create a family of instruments perfectly suited for orchestral stages, modern percussion ensembles, solo performances, and a variety of audition environments. Born of extensive research of prized heirloom instruments heard regularly in some of the finest symphony halls around the world, these drums faithfully recreate these coveted sound profiles while simultaneously offering the benefit of modern advancements in tuning stability, versatility and dynamic range.

“The Opus One concert snare drum series by Majestic will reach every musical itch any percussionist could have. The momentum and fresh thinking that is embedded in the development of these instruments should lift the snare drumming community out of its present rut.”

Christopher Lamb
Principal Percussion, New York Philharmonic

FEATURES

The OP-01 Strainer

The smooth and silent OP-01 strainer is a simple and classic functional design featuring a laser-engraved knurled vertical fine tuner adjustment.

Integrated Bridge

The integrated bridge sets the optimal angle allowing the snare cables to establish a true and consistent point of contact with the resonate side head. The result is extreme responsiveness at all dynamic levels and playing areas of the drum.

I Lugs

To achieve a classic and elegant look as well as maximum shell resonance, the Opus One series drums feature the chrome plated "I" lug.

Claw Hook

The revolutionary "Rigid-Cast" claw hook design utilizes an oblong receiver hole enclosed in a diecast housing which prevents cracking, ensures proper tuning alignment, and allows flexible tolerance for both synthetic and natural heads.

Hybrid Snares

Each model features its own unique set of hybrid or single-type snare cables in order to maximize the sensitivity of the instrument with which they are paired.

Head Selection and Drumdial™ Optimization

Each model comes with specific head combinations and specific Drumdial tuning suggestions through extensive testing and collaboration with world renowned artists.

CHERRY WOOD

WARM & VINTAGE

Combining some of the most desirable qualities of the commonly used tone woods, cherry accentuates projection while maintaining an abundantly warm and round timbre. Applying this material to a pair of opposing shell sizes provides instruments capable of delivering that tonal warmth across the entire spectrum of pitch and dynamic sensitivity.

MOS1325PB

MOS1465PB

"The Opus One series from Majestic is exactly what the percussion community has been waiting for! Simple, elegant, and unique. The wide spectrum of sounds guarantees to fulfill anyone's musical needs."

She-E Wu
International Soloist & Educator

BRASS

BRIGHT & CLASSIC

Dating back more than a century, brass has been a preferred snare drum shell material providing extreme clarity and performance in a variety of musical settings. The antique nickel brushed finish over a 1.2mm brass shell exudes understated elegance while facilitating desirable tonality and sensitivity throughout the extremities of dynamic range.

MOS1440BR

MOS1450BR

MOS1465BR

CAST IRON

RICH & SONOROUS

Harkening the famed “sewer pipe” drums coveted by top orchestral players, this concept has been modernized to offer range and projection suitable for the most dynamically demanding musical passages. Pairing the formidable 6.35mm Seamless Cast Iron Shell with die-cast hoops, this instrument yields unparalleled focus, extreme sensitivity, and undeniably unique tone.

ACCESSORIES

INTEGRATED SNARE CABLE SETS

(ALSO AVAILABLE SEPARATELY)

The Opus One series snare cable sets represent an innovative approach in design for Majestic®. Through careful selection of material type, gauge, and precise tensioning within each set, they provide superior sensitivity while maintaining consistent timbre throughout all dynamic ranges. The unique state of balance and harmony created when utilizing these cables both enhances and emphasizes the natural sonic characteristics of the instrument.

Hybrid

ST16-1401
Uncoated Stainless (5)
0.6 mm & (11) 0.8 mm

ST16-1402

Uncoated Stainless (4) 0.6 mm
& (10) 0.8 mm & (2) 1.0 mm

Single

NW16-13
Nickel Alloy (16) 0.6 mm

CS16-14
Coated Cables (16) 0.85 mm

FREQUENCY MODIFIERS

(ALSO AVAILABLE SEPARATELY)

Frequency Modifiers are accessories crafted from select materials and intended to allow performers to quickly modify the snare drum's tone. Extensively tested and tailored using the most suitable materials, shapes, and weights as to not muffle desirable frequencies or stifle the drum's response but rather allow the player to enhance and expand the pallet of sounds available.

PVC

- Special PVC material, designed to enhance the drum's sound for specific applications.
- Slip-on Clip for easy and stable attachment to the drum hoop. With laser engraved Majestic logo and model identification.
- Suitable for any 14" diameter drum.

CLOTH

- Tailored thin cloth material, designed to enhance the drum's sound for specific applications.
- Slip-on Clip for easy and stable attachment to the drum hoop. With laser engraved Majestic logo and model identification.
- Double Tucked for increased mass on the drum head surface and easily adjustable into different shapes.
- Suitable for any 13" or 14" diameter drum.

PFM1440/50
Included with
MOS1440BR & MOS1450BR

PROPHONIC SERIES

SNARE WIRE

Tailor to your discriminating taste with endless combinations of snare textures. Choose from 11 unique snare varieties, exclusive to the Prophonic Series.

1 Strand Wooden Beads
Dark and heavy. Produces an unconventional boxiness and warmth.
HK1

2 Strand Red Glass Beads
Uniquely dark and distant with a distinctive retro lo-fi limited frequency response.
RK2

4 Strand Phosphor Bronze Wound
Responsive with a wide frequency spread. Wet, yet dark.
9PGS4

4 Strand Thick Synthetic Gut
Deep, heavy, and earthy. Responds very well when played at louder dynamic levels.
TSN4

6 Strand Medium Uncoated Stainless Steel Cable
Very dynamic and sensitive response. Slightly edgy and dry overall tone.
06STS6

6 Strand Thin Nickel Wound
Extremely responsive and slightly wispy. Very clear and articulate at softer dynamics.
NGS6

6 Strand Black Cloth Cord
Extremely dry and controlled. Adds head-dampening characteristic when used in conjunction with other cables.
MS6

6 Strand Medium Black Coated Cable
Dark and articulate. A versatile choice.
MC6

8 Strand Black Coated Cable
Medium dry. Somewhat dark and quite articulate.
MC8

8 Strand Thick Stainless Steel Cable
Loud and heavy with a broad spread. Appropriate for ceremonial marches.
STS8

6 Strand Plated Steel Spiral Wire
Light and conventionally wet sounding.
SNM6

PEDRO FERNANDEZ

PHILADELPHIA ORCHESTRA

“My Prophonic Walnut Snare Drum sounds stunningly beautiful. Masterworks or Pops concert, this drum is Gold!”

CONCERT BLACK SERIES

An excellent choice for any level of performance, the Concert Black Snare Drums are well suited for all genres and applications. The combination of blue coated and braided steel cables yield a premium sound at all dynamic levels.

Model	MCS1440AL
Size	14"x4"

MARIMBAS

The Majestic Quantum Field Frame offers modular and flexible mounting options, allowing precise, secure positioning of auxiliary instruments as well as amplification equipment. Height adjustment is aided by pneumatic cylinders for smooth, easy operation.

Model	M1550P
Range	5 Octaves (C2-C7)
Bars	Synthetic
Graduations	7
Bar Width	75.5 mm - 37.6 mm
Resonators	Offset Arch
Wheels	20.3 cm
Length	284 cm
Width	113 cm
Height	83 cm - 113 cm

Model	M1543P
Range	4.3 Octaves (A2-C7)
Bars	Synthetic
Graduations	5
Bar Width	63 mm - 37.6 mm
Resonators	Offset Arch
Wheels	20.3 cm
Length	235 cm
Width	113 cm
Height	84 cm - 104 cm

XYLOPHONE

Quantum Field Xylophones employ traditional American-style quint tuning over the widest possible range to deliver a bright, and balanced tone.

Model	X1535P
Range	3.5 Octaves (F4-C8)
Bars	Synthetic
Graduations	Full Slant
Bar Width	37.6 mm
Wheels	20.3 cm
Length	169 cm
Width	92 cm
Height	76 cm - 88 cm

VIBRAPHONES

The big, full-bodied tone produced by Majestic Quantum Vibraphones can fill stadiums while retaining a lush, warm timbre.

Model	V1530G
Range	3 Octaves (F3-F6)
Bars	Aluminum, Gold
Graduations	4
Bar Width	57 mm - 38 mm
Resonators	Offset Arch
Wheels	20.3 cm
Motor	Variable Speed
Length	173.5 cm
Width	99 cm
Height	79 cm - 91 cm

Model	Range	Bars	Graduations	Bar Width	Resonators	Wheels	Motor	Length	Width	Height
V1530S	3 Octaves	Aluminum,	4	57 mm - 38 mm	Offset Arch	20.3 cm	Variable Speed	173.5 cm	99 cm	79 cm - 91 cm
V1530SX	F3-F6	Silver								

MARCHING BELLS

Lightweight materials and precision tuning combine to produce great tone while maintaining player comfort.

Model	B2525A
Range	2.5 Octaves (G5-C8)
Bar Materials	Aluminum
Bar Mount	Dual Pin
Bar Width	32 mm
Bar Thickness	9.5 mm

CHIMES

Lightweight materials and precision tuning combine to produce great tone while maintaining player comfort.

Model	C1618C
Range	18-Tube (C5-F6)
Tubes	1.5" Chrome
Damper Box	Enclosed, Lockable
Pedal	Full Swivel
Wheels	8"

Model	Range	Tubes	Damper Box	Pedal	Wheels
C1618B	18-Tube	1.5" Brass	Enclosed, Lockable	Full Swivel	8"
